

## Intumescent Monthly

[www.albi.com](http://www.albi.com)

**A monthly report of products, projects and ideas for Albi fireproofing applications**

The number of people receiving Intumescent Monthly has increased substantially each month. As a result, we want to give others access to the information provided in previous editions.

1. Please check out the new Albi website at [www.albi.com](http://www.albi.com)
2. **Intumescent Fireproofing Worksheet:**  
This worksheet lists the key information required for providing a thorough, accurate estimate.  
<http://albi.com/fireproofing-worksheet>
3. **Sales Literature:**  
PPG PMC reps can access Albi/PPG literature through the PPG SMART ordering system.  
<https://www2.orderfront.com/PPGPMC/Login.aspx?ReturnUrl=%2fppgpmc%2fDefault.aspx>

Architectural Sales should contact their Zone Sales Managers for literature.

### Company News:

Fireproofing orders are coming in from all over the country over the past two months. We are seeing quite a bit of activity up and down the east coast as well as throughout the Midwest. We also have an increasing number of bids working their way through the system. PPG Canada has taken fireproofing orders in Nova Scotia, Quebec, Ontario, Manitoba and Alberta during the past month with more expected in the near future. These successes are the direct result of a coordinated effort between the PPG and Albi sales teams.

For all you ichthyologists, the StanChem Fishway was part of World Fish Migration Day on May 24. The public was able to visit our migratory fish ladder and see how it provides access on the Mattabesset River to miles of spawning grounds for fish traveling upstream from the Atlantic Ocean and Connecticut River.

### Albi /PPG Product Training:

The PPG PMC Zone Training Specialists were at Albi the first week of June for a "Train The Trainers" session. By all accounts, the training went very well. In the past month, Albi and PPG have conducted training seminars in **Indianapolis, IN, Edina, MN and Pittsburgh, PA**. Thanks to the PMC West Zone, Albi will be part of the Industrial Coatings Training in **Anaheim, CA** on June 24. Training sessions are also scheduled for **Des Moines, IA** and **Omaha, NE** the week of July 7. For anyone interested in an Albi Training Session, please contact your Zone Manager. We have seen increases in inquiries, proposals and, ultimately, sales in each of the areas in which training has taken place.

**Case Histories:** This month's case history comes to us from the Phoenix, AZ.

## Case History

**Job Name:** Federal Courthouse  
**Job Location:** Phoenix, AZ  
**Job Date:** April 2001  
**Product Used:** Albi Clad TF, Albi Clad 800

---

### Description of Job:

The Phoenix Federal Courthouse required a three hour rating for both interior and exterior applications.

The exterior consisted of large star columns fireproofed with Ali Clad 800. The interior had both large star columns as well as pipes. Albi Clad TF was applied giving a three hour rating with an aesthetic architectural finish.
