Re: DriClad Product Qualifications - LEED

Albi DriClad fireproofing is a solid man made mineral fiber.

DriClad fireproofing meets the following LEED credit parameters:

MR Credit 4 – Recycled Content

Albi DriClad contains 75% pre-consumer post-industrial and 0% post-consumer recycled material

Depending on location of installation the following credits may apply:
These credits can only be assigned if the job site is located within 500 miles of

a. MR Credit 5 – Manufacturer’s Location

Albi DriClad location of manufacture is Milton, Ontario

b. MR Credit 5 – Distance of Raw Material Suppliers

Sincerely yours,

Joe Shaskus Jr.
Chief Engineer
